Google Play TURKEY Done

Profile

I have successfully published over seven apps on the ***Google Play Store*** **.** I am committed to continuous learning and skill enhancement to deliver superior applications and exceptional user experiences. I consistently apply **SOLID principles** and **clean code** practices in all my projects while focusing on **performance** optimization and efficient **memory usage** to ensure high-quality software solutions.

Professional Experience

08/2022 – present
SAKARYA, TURKEY

Software Engineer
Primeware

- My primary responsibility is to **enhance** product **performance** and **memory** collection to provide the best user experience in company applications, particularly by **applying solid principles** and **design patterns** through code refactoring.
- **Developed two mobile applications using Flutter:**
  - **Finance App**: A user-friendly application allowing users to sign in and manage their finances by tracking both cryptocurrency and traditional currency balances.
  - **Appointment App**: Designed for sports clubs, this application facilitates appointment scheduling, enhancing the user experience for both clubs and their clients.

07/2022 – 08/2022
SAKARYA, TURKEY

Software Engineer Intern
Primeware

I was responsible for fixing logic and technical errors in various software applications. I learned a lot from this experience and improved my coding skills and problem-solving abilities.

Projects

06/2024 – 01/2025

Hadith Books
Flutter&Dart, Clean Architecture, Bloc, SQLite, Localization

Hadith Books is a comprehensive app that provides access to a wide range of hadith books. It is designed to be user-friendly and accessible, supporting both Arabic and English languages.

- Wide Range of Books (+10)
- Advanced Search Feature
- Reading Position Saving

05/2022 – 10/2023

Islamic App
Flutter&Dart,Clean Architecture, Getx, Bloc, Firebase, Firebase Storage, Api, Notifications, SQLite, Location

An application that provides you with the ability to read the Quran along with important daily supplications.
I write it with two different state management Getx & Bloc in different branches.
The most essential features of the application:

- Reading the Holy Quran
- The ability to read in night mode
- The possibility of listening to the Holy Qur'an for many famous reciters
- The most critical daily remembrances such as morning and evening remembrances...
- Constant remembrance of hadiths and remembrances

- A reminder to fast on Mondays and Thursdays
- Reviewing the first verses of each page in the Qur'an in the form of questions
- The Most Beautiful Names of God with explanation
- The ability to search for words in the Holy Quran

05/2023 – 06/2023 **Finger Print laying checker**
Flutter & Dart, Getx, Ad mob, Audio Player, Admob
app gets more then 100K download on google play.
This app is designed to detect lies and provide fun for users. You can enjoy this app with your friends and test each other's honesty.

08/2021 – 11/2021 **Freelance Busnis App (Alkot Mobilya)**
Flutter&Dart, Getx, Firebase, Firebase Storage, Firebase Notifications
I made this app for the client to allow him to send his product images and descriptions and then I took this information and uploaded them to the client's website.

04/2021 – 06/2021 **Trandesmens Notebook**
Flutter&Dart, Getx, Firebase, Firebase Storage, Api
This app allows you to manage the money of your business.
Program Specifications
- add what you expense, purchase, and earn money to calculate your profitable
- show Expanses, Purchares, Earned money and the Profitabel of a single day
- View the stored data by selecting the type of money or by selecting a specific time
- supported English, Turkish, and Arabic languages
